

Proposals for e-voting Solution

NNF is a professional organization of more than 7500 members involved in the care of newborn across the Country by training, mentoring and creating a pool of trained professionals in newborn care. We are a Society registered under the Societies Registration Act, 1860. We function under a democratically elected Executive body elected from amongst our members, by a system of election with voting rights exercised by eligible members. Our members are based throughout India and from the total of all members we have close to 7,500 (Seven thousand five hundred) members who are eligible to vote for various positions in the elections. We have been successfully conducting physical voting since our inception, but with advent of new technology the Governing Body has resolved to conduct E-voting. We are looking for solution for conducting a secure and democratic election through e-voting. We invite proposals for a solution of e-voting for our organization. For submitting your proposals & for any further details/clarification please contact in NNF Office at secnnf@nnfi.org/ info@nnfi.org +918527453535.
